

COMMUNICATION UNIT FPS®-COM 5000

Dräger FPS®-COM 5000: Communication Device for Full Face Masks

In emergency situations, clear communication is essential. The Dräger FPS®-COM 5000 was specially developed for the Dräger FPS® 7000 full face mask to ensure communication without misunderstandings. This device is equipped with a voice amplifier and also works with radio devices, even in extreme conditions. Now, users can communicate clearly and promptly during critical situations.
